Career Objective

Motivated engineering student seeking opportunities to apply technical knowledge, improve skills, and contribute to real-world projects.

Education

Bachelor of Engineering in Data Science

Ballari Institute of Technology and Management
CGPA: 8.05

Pursuing

Pre-University

Sri Chaitanya PU College
Percentage: 72%

High School

K.C Narayana High School
Percentage: 63.3%

Technical Skills

Programming Languages: C, Python, Java

Tools: VS Code, Git, Overleaf, Claude, Vercel

Areas of Interest: Software Development, AI/ML, Database Management

Projects

Single Axis Solar Tracker

Tech: Python, Flask, TF-IDF, Logistic Regression, SQLite

- Built a web application that classifies weather using TF-IDF features and a Logistic Regression model.
- Stores submissions and results in a SQLite database and generates a shareable link for each result.

BookBridge – Book Buying and Selling Platform

Tech: JavaScript, HTML, CSS, Google Fonts

- Developed a student-friendly book marketplace that connects buyers and sellers directly.
- Provides a platform for buying and selling second-hand books and stationery.

Strengths

Problem-solving, teamwork, communication, leadership quality, and adaptability.
